

Enhancements

Company

- #2454 Added Date only and Time only columns to all Date columns in the Master Lists and to many other grids.
- #2458 You can now export your Trading Partners to Accounting. Make changes to your trading partners in EnvioAg and export them into quickbooks multiple records at a time.

Production

- #2367 An option is now available when re-printing pallet tags to opt out of re-printing box labels.
 - a. The policy must be set for this option to occur: [Company > Process Policies > Run > Box Label](#), and turn on the [Automatic Box Labels](#), and [Print Box Labels](#) options
- #2457 Performance improvement to the Supplier Receipt screen (Dynamic Tabs)
- #2496 Additional logging in the run and supplier receipt screens. In both screens when a tag is moved to another run/supplier receipt, there will be a log entry in both the source and destination processes.
- #2497 Sped up performance on the [Run > Packout Plan](#) tab

Sales

- #2455 Enabled changing the country on a sales order product line after a supplier has been selected.
- #2466 Added two new columns to the Sales DashBoard "Order Commitments" block.
 - a. [Reference1](#) (from the Sales Order Product Line)
 - b. [Reference2](#) (from the Sales Order Product Line)
- #2475 Sales Order Shipment has two new columns in the load dropdown
 - a. [Partner](#)
 - b. [ShipOnDate](#)
- #2481 Added ability to change the order status to [Open](#) when status is [Shipped](#) or Loading as long as there are no Shipment Items (tags) attached to the order.
- #2497 Enable ability to set the Font Size, Color, and Bold for the [Column Totals](#) columns in the SalesBoard Inventory grid (not the sales order grid).
- #2497 Enable ability to select which columns to apply the custom font to. Example: I want color on my [Variety](#) column totals, but not on my [Pack](#) column totals.
