

Enhancements

Dock Operation

- #2627 Added a policy that will allow users to bypass the confirmation dialog when moving a tag with handheld. [Company > "Company Name" General Policies > Process Type: General > Group: Handheld > Bin Pack, Dump Into Run \(Drop Down List\), Filter by Run Type \(blank for all RunTypes\)](#)

Sales

- #2627 Removed the inactive dropdowns on the [From](#) and [Thru](#) dates at the top of the Sales Board screen to prevent confusion.

Purchasing

- #2618 Prior to this release, the Administration tab in Purchase Orders was always disabled while in Closed Status. It is now active in Closed Status.

Handheld

- #2627 The handheld policy for product matching on dump will now correctly respond to the user selection when the policy is set to [Warn](#) and the user selects [Yes](#) when asked if they would like to proceed with a mismatched dump.

Repair Notes

- #2618 EDI ASN/Invoice Export now finds the correct PO imported EDI XRef Code.
- #2618 Upcharge repairs on sales order refresh
- #2619 In Item Override, a repair was made to the Container Owner field. Prior to this release, after the dropdown was closed, the Container Owner field would be blank.
- #2619 Packout Grid line items are now showing as colored after shipment
- #2619 Upcharge dialog repair on sales orders
- #2621 EDI Fix to correctly select EDI XRef Code for Change Documents
- #2622 Corrected issue with Null ShipTo Partner, introduced in Builds 2618 and 2619, related to the UpCharges Refresh corrections.
